ABOUT US

Digimyzed designs websites that look sharp and sell smarter—blending brand-first UI/UX with conversion thinking. We deliver fast, SEO-ready, mobile-first builds on Webflow, WordPress, or React, with data-led copy, funnels, and tracking so every pixel has a job. We ship quickly and iterate quicker, keeping code clean and handovers effortless so your team can own it. Let's digimyzed your brand and turn browsers into buyers.

WORK EXPERIENCE

OPENED IN CALGARY 2023

- Launched in Calgary, serving startups & local brands.
- • Shipped first sites & case studies—referral-led from day one.
- • Set our playbook (discovery → UX/UI → build → analytics) and “aesthetics × analytics” ethos.

2025 — 50+ WEBSITES DELIVERED

- End-to-end delivery: discovery → UX/UI → build → QA → launch.
- Tech stack: WordPress, Shopify, WIX, Framer, You name it we do it.
- Consistent outcomes: faster load times, clearer funnels, better conversions.

WE MAKE ALL KINDS OF WEBSITES

Portfolios, stores, and booking sites—clean designs that load fast and convert. Discovery → UX/UI → build → analytics.

WORDPRESS WEBSITES

Custom WordPress + WooCommerce builds. Easy editing, clean code, speed, security, and SEO handled.

SHOPIFY

High-converting Shopify stores with products, payments, shipping, and apps set up right. CRO and SEO included.

GRAPHICS

Logos, brand kits, social posts, ads, and decks—consistent visuals that sell your story on your website.

FRAMER & WIX

Launch fast with Framer or Wix—CMS, animations, and responsive layouts with SEO best practices.

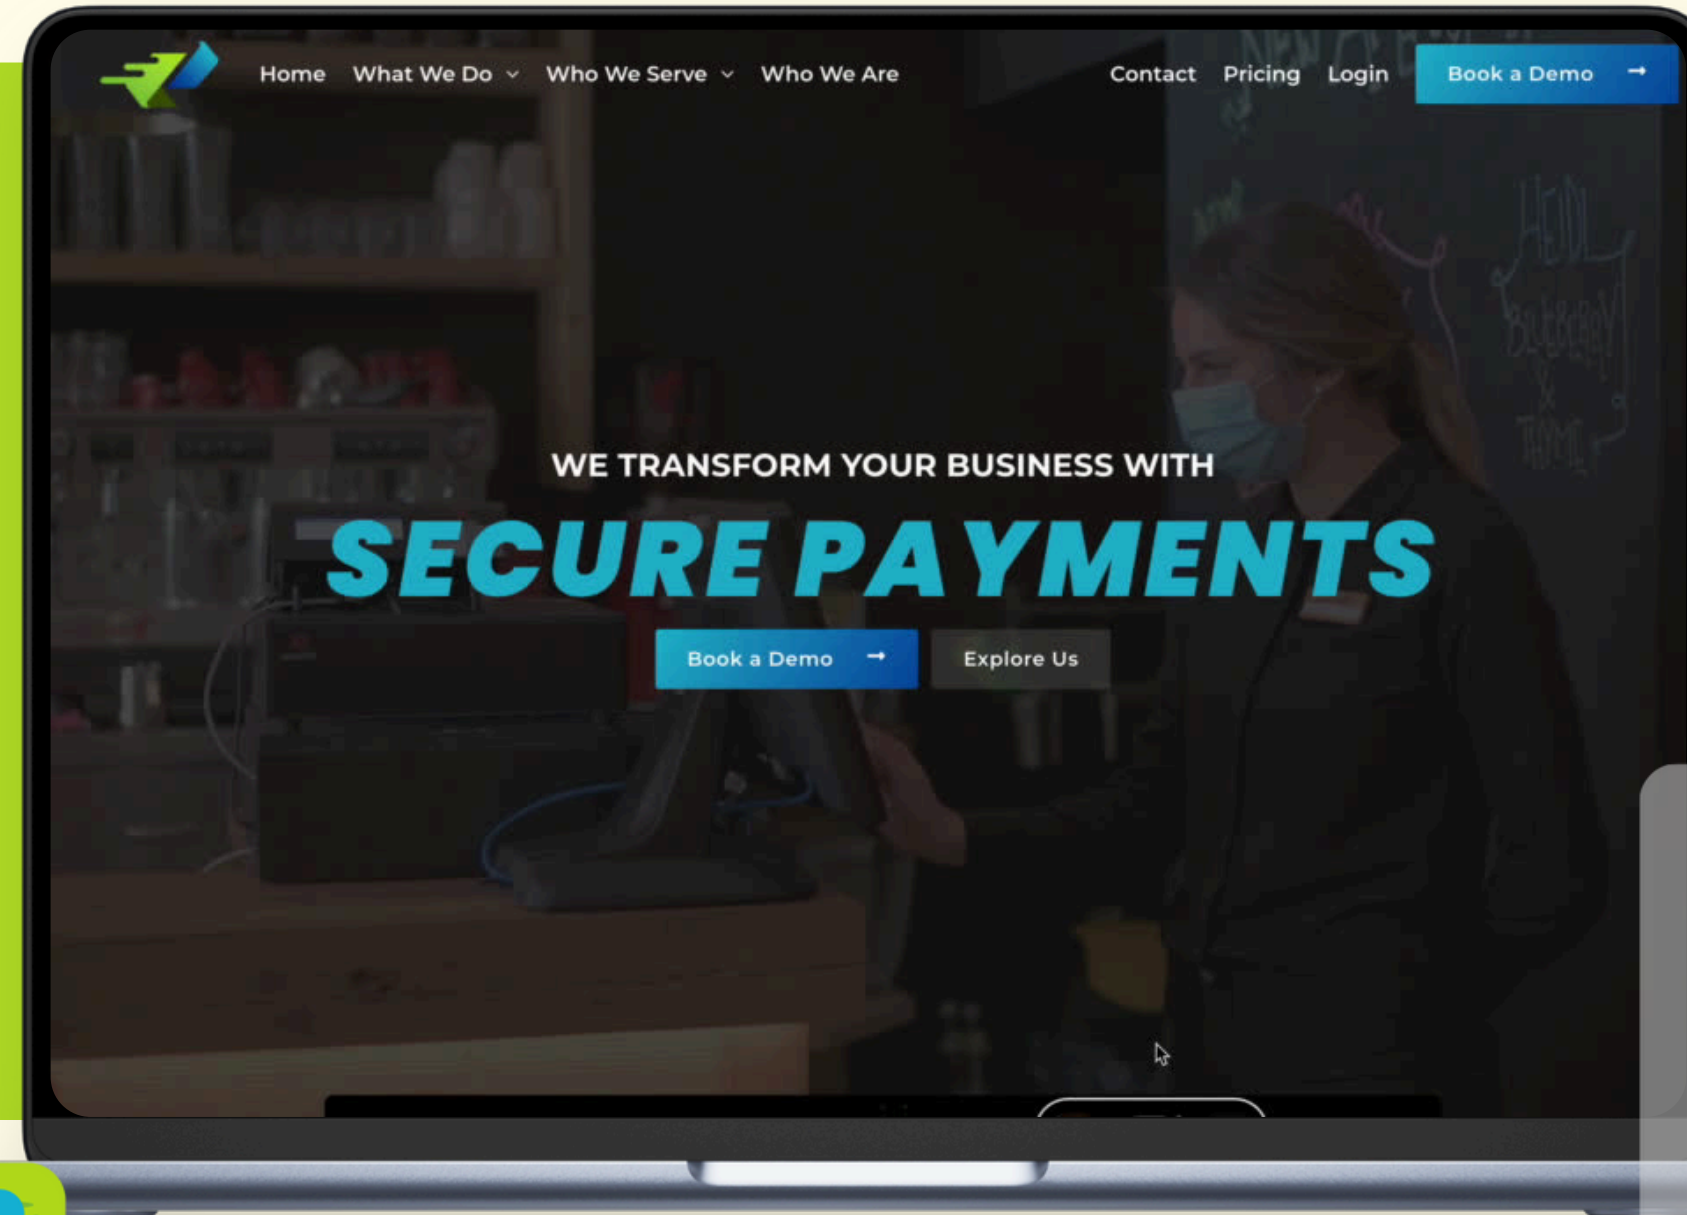

LINKS

For easy browsing, explore a selection of client websites we've built over the years. Note: some are no longer under our maintenance, so the live versions may differ or have minor glitches. The original designs are showcased throughout this portfolio.

Graphic Based

GOAL

This website was designed with the user in mind. We sought to create a visually stunning experience with high-quality graphics, while maintaining a clean, minimalist layout that prioritizes easy navigation and a modern feel.

SAMOSA HOUSE INDIAN CUISINE

FINE DINING, DELIVERY, CATERING, TAKEOUT

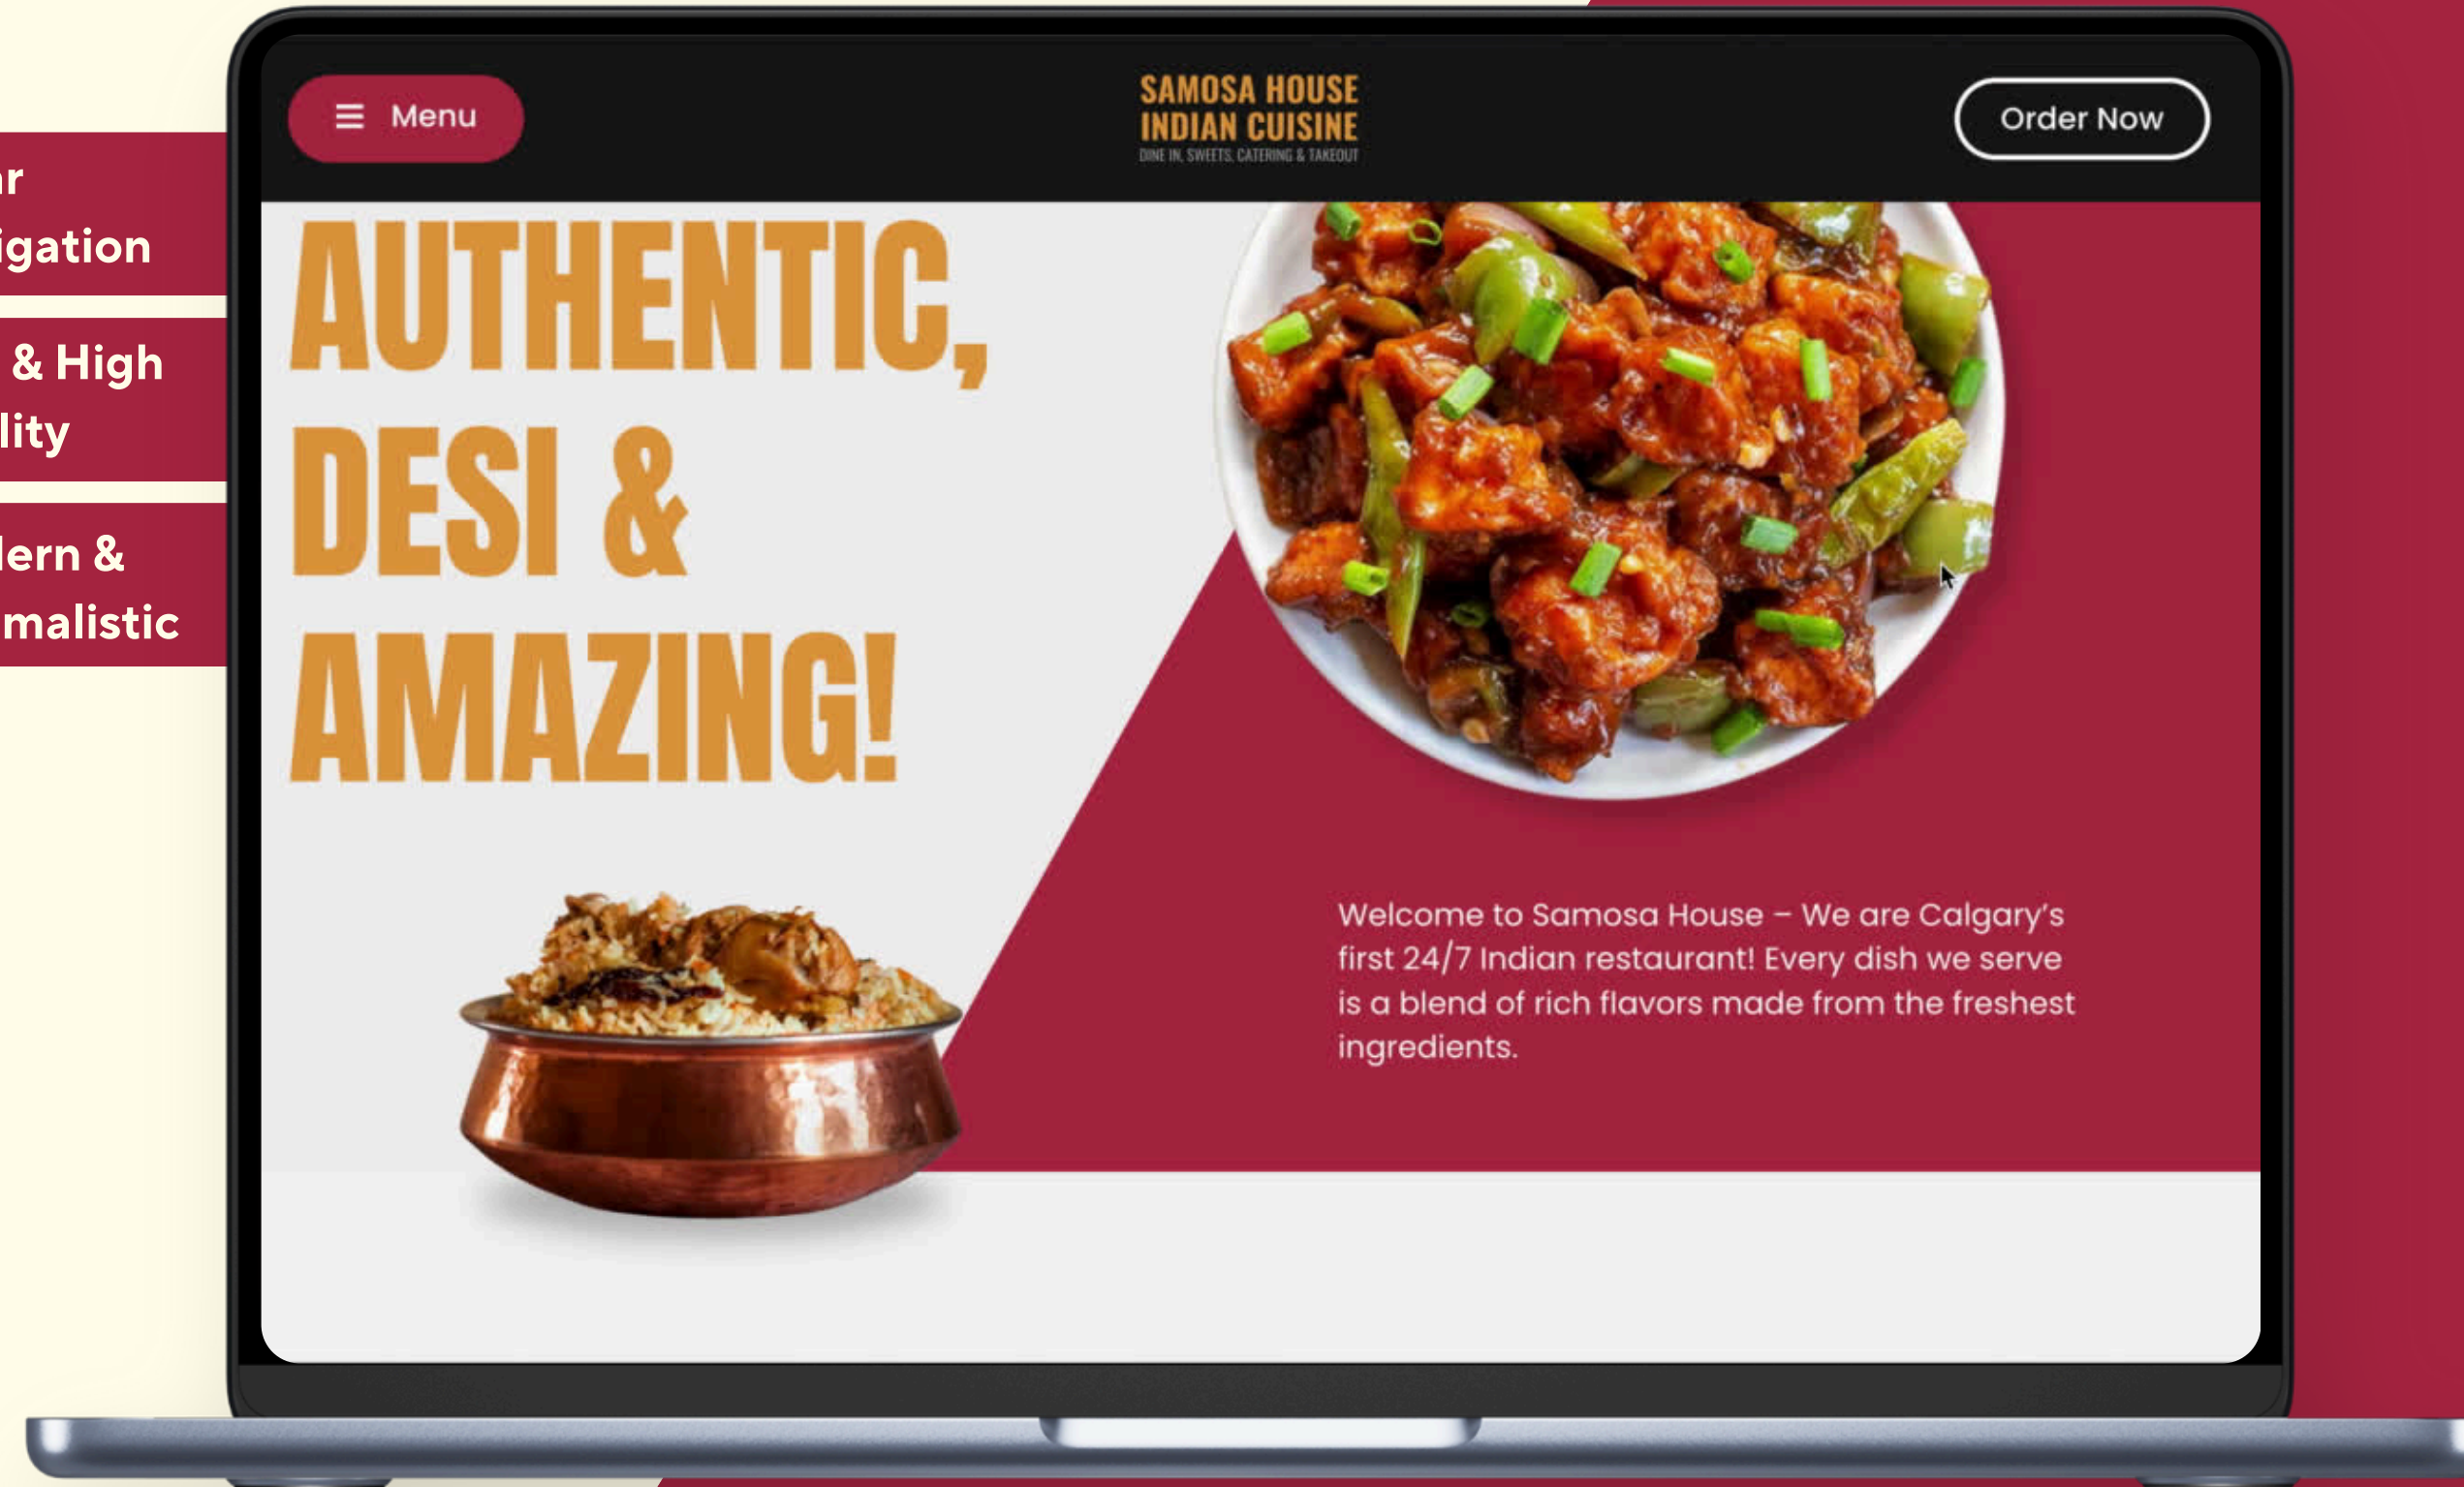

GOAL

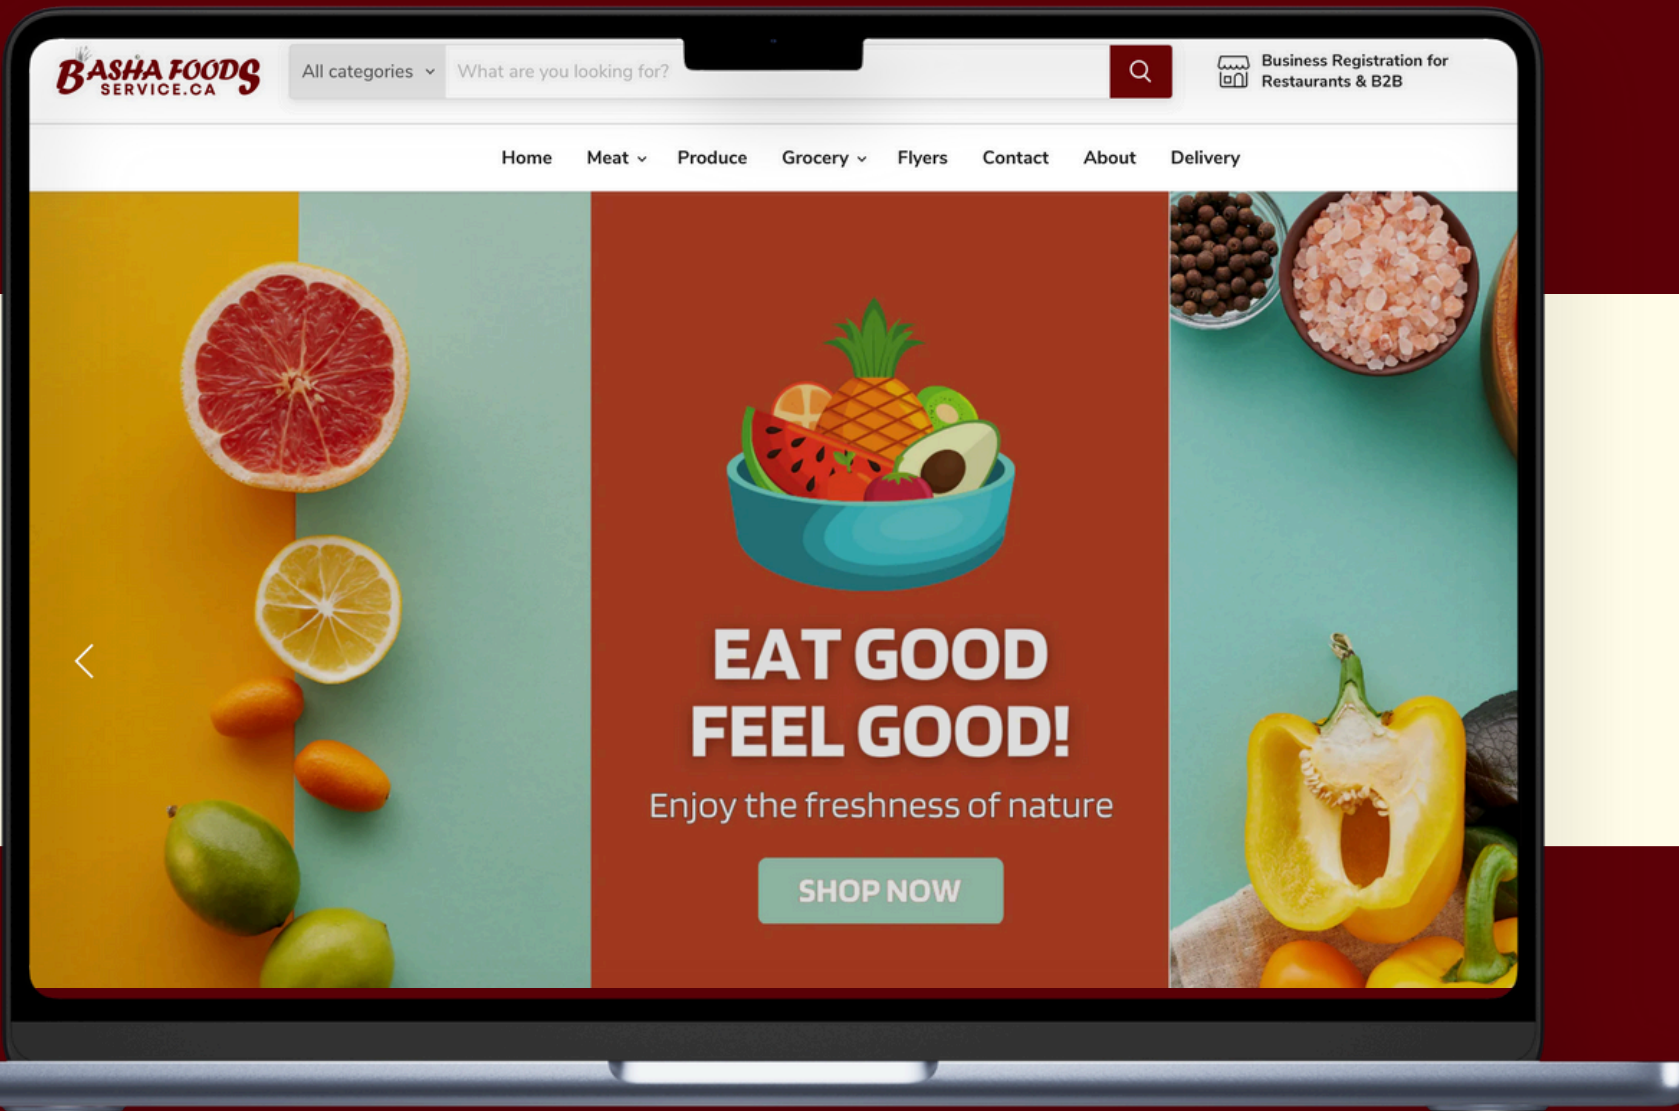

Samosa House is designed to be loud in the best way—big, bold fonts, vibrant colors, and full-bleed, bright food photography that makes every samosa pop. The layout stays clean so the visuals shine, with quick paths to menu, ordering, and locations. Clear CTAs and a sticky order bar remove friction on mobile. Optimized for speed, accessibility, and local SEO to turn cravings into checkouts.

GOAL

Riverview Finserve's site is built user-first—minimalist, fast, and easy to navigate with crisp visuals. We added a custom EMI calculator and a suite of financial tools (SIP/FD/RD estimators, loan eligibility and comparisons) to turn browsing into confident decisions. Clear CTAs, trust badges, and concise FAQs guide users to book consults in seconds. Optimized for speed, security, and SEO, it's built to convert and scale.

Our sleek electric battery website is ready to launch. With a user-friendly design, we've created an online platform that showcases our products and commitment to sustainable energy. We're confident it will drive growth and establish us as a leader in the market.

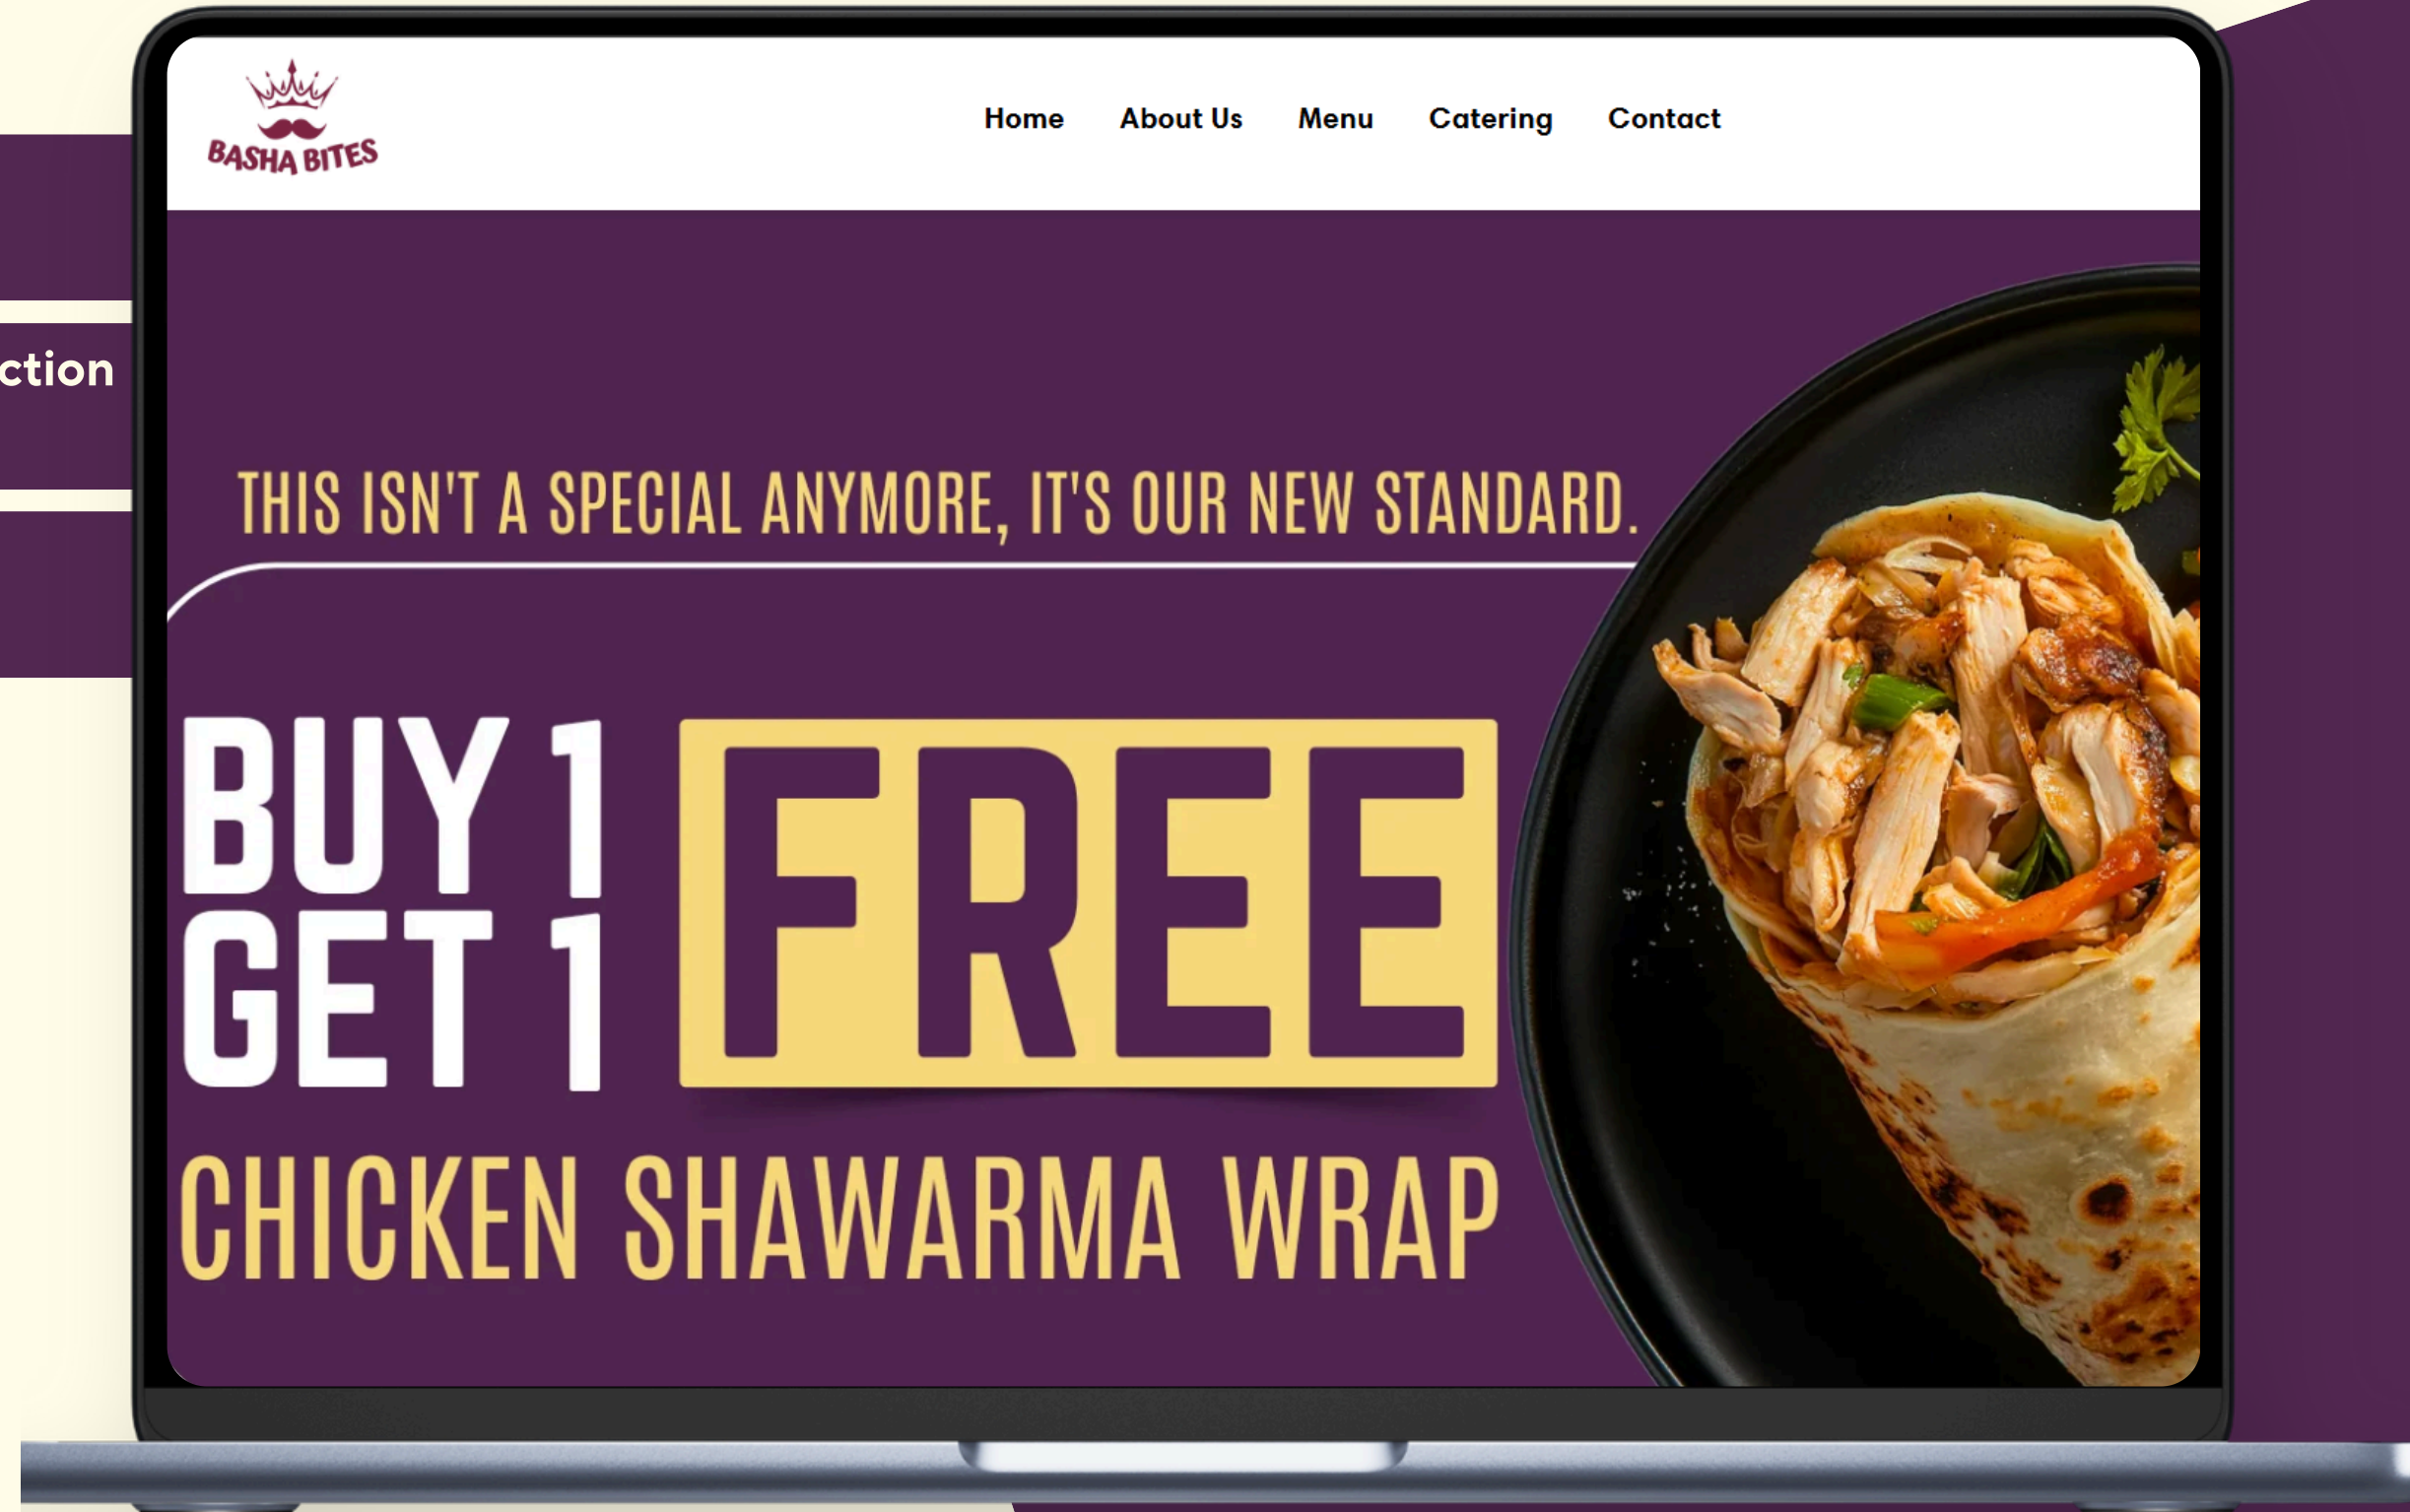

GOAL

Build a strong digital presence for Basha Bites by creating a fresh and memorable brand identity, a modern website with smooth online ordering, and high-quality graphics that truly showcase the restaurant's food and values. The aim is to position Basha Bites as a go-to destination for Middle Eastern flavors while also driving steady lead generation and online customer engagement.

GOAL

To rebrand and redesign the digital presence of The Canada Bus with a sleek, user-friendly website, an updated bus schedule, and a new social media setup that improves customer experience and drives more online bookings. The focus is on making travel bookings easy, modernizing the brand's image, and ensuring a seamless online journey for travelers across Alberta.

- ✓ SEO Optimization

GOAL

To build a powerful and professional digital presence for WSJ Janitorial Services by combining lead generation strategies, modern website design, SEO optimization, social media advertising, and high-quality graphic content. The aim is to position WSJ as a trusted cleaning solutions provider while increasing visibility, driving engagement, and turning online traffic into measurable business results.

GOAL

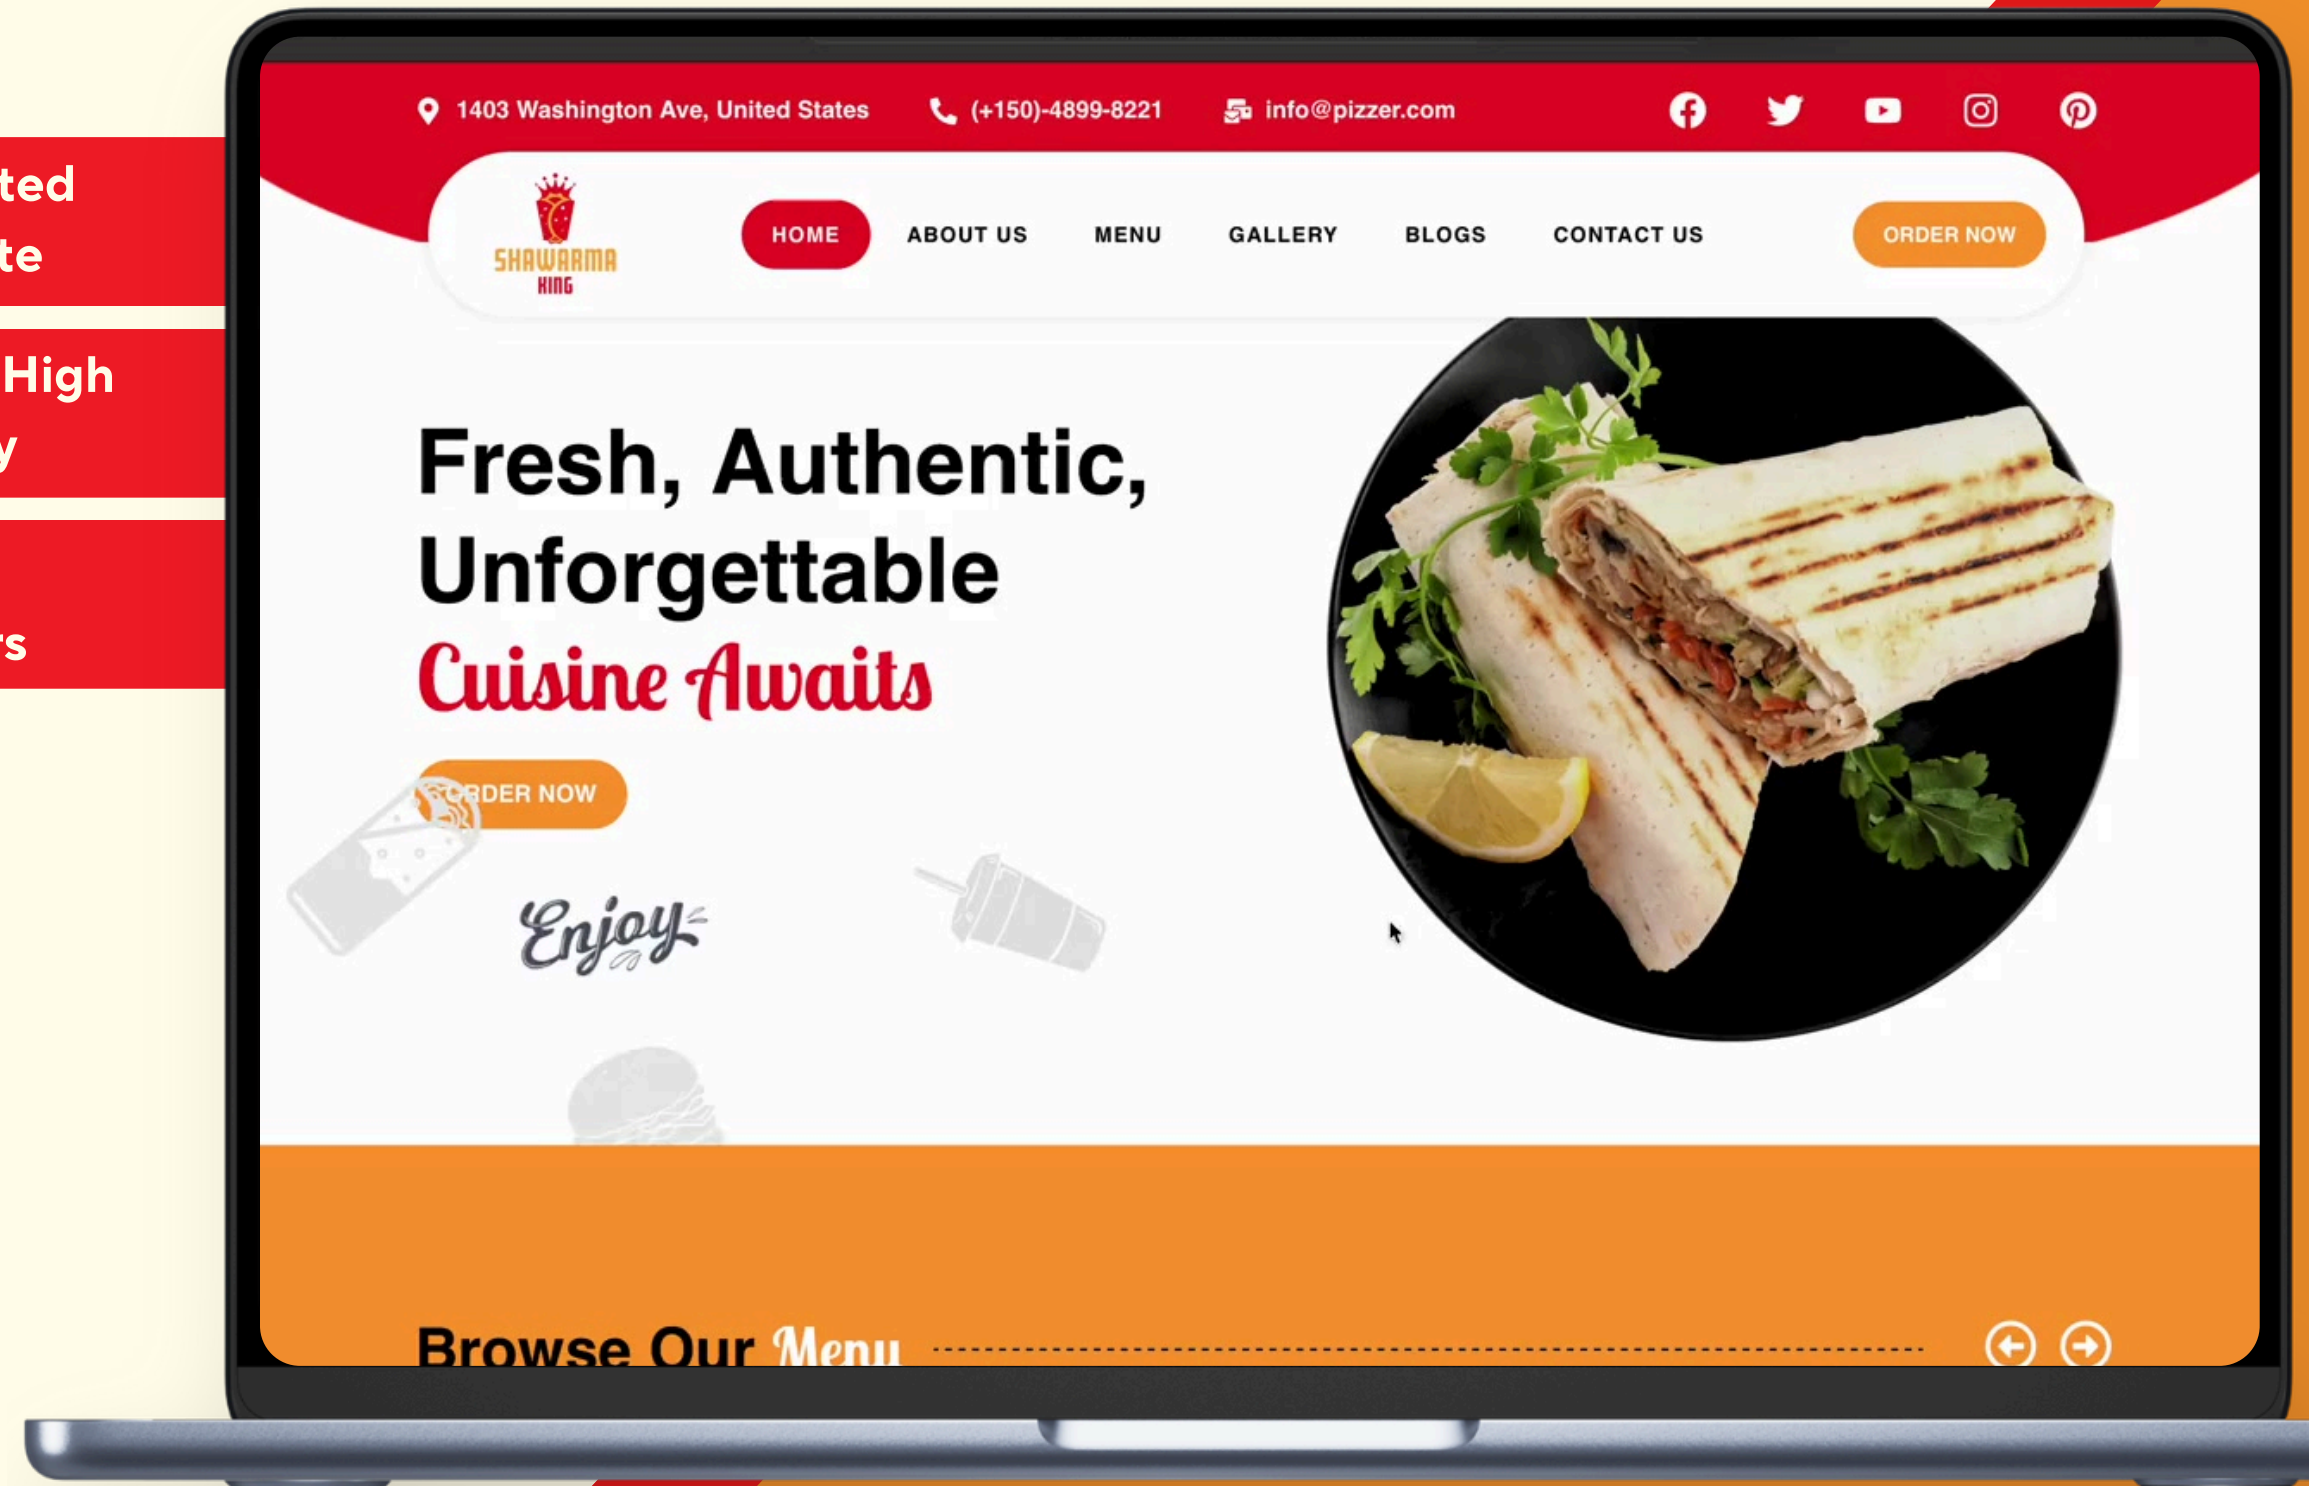

Shawarma King's new site 3x'd online sales, with most orders now coming through their own website. Fast menu browsing, quick-add items, and one-tap checkout make ordering effortless.

Pickup/delivery flows, a sticky cart, and smart upsells boost conversions. Own-site promos and loyalty reduce third-party fees and keep customers coming back. Refreshed branding—bold colors, typography, and crave-worthy photos—lifted perceived quality. Result: higher margins, stronger brand equity, and a quick, successful owner exit.

GOAL

Toscana Italian Grill got a full Framer rebuild—fast, responsive, and smooth. Cinematic, high-quality food photos now showcase the menu beautifully. One-tap table bookings with clear slots and instant confirmations. Built-in pickup ordering plus clean enquiry forms for catering/private dining. Impact: more reservations and orders, longer sessions, and fewer phone queries.

Welcome to Toscana.

GOAL

SIDDCO Plumbing & Heating got a dark-grey, modern website revamp—fast, clean, and responsive. Minimal UI with sleek micro-animations and bold, high-contrast typography. Booking made easy: pick a service, choose a time, confirm in seconds. Simple quote/enquiry forms for installs, repairs, and emergencies. Result: more inquiries and scheduled jobs, fewer back-and-forth calls.

GOAL

Digityce—our sister company and favorite build—got a beautiful, modern website. Modern color system with sleek, tasteful animations across pages. Clean IA, bold type, and a case-study-led flow that spotlights work. Clear CTAs to inquire, book a call, or view projects—frictionless on mobile. Fast, responsive, SEO-ready, and built to scale with the brand.

Robust CMS + analytics baked in for easy updates and measurable growth. Accessibility and performance best practices throughout—secure, smooth, and future-proof.

Digital Marketing That Grows Your Business

GOAL

DIBS Electric—an electrifying, dark-themed site with neon highlights and punchy contrast. Bright-over-dark palette with subtle light-flash accents and classy micro-animations. Bold type and modular sections that spotlight services (residential, commercial, EV chargers).

Instant CTAs to request a quote, book a call, or hit the emergency line. Fast, responsive, and SEO-ready with rock-solid performance and accessibility.
